

Students Say:

"I like it that if I speak out and it isn't the answer you are looking for, you don't make me feel stupid."

"Work is not ordinary school work. It's like learning without the work though we are working."

"I like the diversity and group participation in the class."

"There was always someone to help. The instructors all would make sure you knew what you were doing."

"I learned a whole lot more than I do in a stand-alone class."

"I understood more things when I worked with others."

Learning Community**

**Coming Together
Where the Waters Meet**

Join the Aravaipa Learning Community

The way research shows you learn best:

- Participate in your own learning.
- Discover connections between subjects.
- Experience hands-on applications.
- Make friends and study together in groups.
- Meet your neighbors and learn about community history and environment.

How Does It Work?

Earn 7 credit hours through activities and hands-on experiences.

3 credits social science

and

4 credits math

- Grades based on activities, including field trips, films, guest speakers, and simulations.
- Convenient schedule. Only two days each week.
- Career and counseling services.
- Friendly, experienced teachers in the classroom to help you succeed.

Activities Make Learning Fun and Interesting

Explore our community through learning activities. Some of our activities include archeological dating, surveying local plant life along the San Pedro River and playing the FishBanks ecological simulation game.
